## Synopsis

The four dead guards didn't concern Mitch Rapp as much as the absence of the man they'd been paid to protect. Joe Rickman wasn't just another foot soldier. For the last eight years Rickman had ran the CIA's clandestine operations in Afghanistan. It was a murky job that involved working with virtually every disreputable figure in the Islamic Republic. More than a quarter billion dollars in cash had passed through Rickman's hands during his tenure as the master of black ops and no one with a shred of sense wanted to know the details of how that money had been spent. At first glance it looks as if Rickman has been kidnapped, but Rapp knows certain things about his old friend that cause him to wonder if something more disturbing isn't afoot. Irene Kennedy, the director of the CIA, has ordered Rapp to find Rickman at all costs. Rapp must navigate the ever-shifting landscape of Afghanistan as the Taliban, Iranians, Pakistanis and Russians all plot to claim their piece of the war torn state. With Afghanistan crumbling around him, Rapp must be as ruthless as his enemies and as deceitful as people in his own government if he has any hopes of completing his mission.

## Customer Reviews

A little over ten years ago, I was given a book by a coworker. He said, "This is way better than Tom Clancy." I was offended, not because I knew Clancy, but because I knew of him as an author that wrote great narrative blended with incredibly accurate, action-packed stories. My coworker was right. Vince Flynn is an excellent author. He has created a main character who is not afraid to have an opinion or take a stand. Flynn's series of books can be read in any order, and it's nothing short of

a treat to discover the background of his characters when reading chronologically earlier titles. Vince Flynn has written another title, *The Last Man*, which is as eerily prescient as his earlier *Memorial Day*. As I began to read the advanced copy from Atria Books, a Simon & Schuster imprint, the news of an actual terrorist strike on the US Embassy in Libya hit the front page of every news site and newspaper. Flynn's uncanny timing unfolds with his go-to main character, Mitch Rapp, as he is called on to rescue a missing CIA agent from a safe house in Afghanistan. While not exactly what was unveiled in actual world events, the author does capture the very real world of secret operatives working off the radar in hostile territories. Irene Kennedy, the only person able to reign in Rapp's destructive prowess, leaves the safety of her office to aid in the rescue mission. Mitch Rapp and his elite crew strike out to retrieve their target from the hands of the bad guys, while elements within the US and Afghan governments attempt to foil his efforts out of a need to hide their nefarious purposes. Perhaps the idea is not entirely past its prime, but the idea of a kidnapped, US government official being rescued from terrorists is not a new theme in the recent fiction and non-fiction genres.

Over the past couple of years, Vince Flynn has been filling in the early, or "hidden," years of Mitch Rapp, the covert CIA agent who many of us hope has a real-world model out there. While the recently published *AMERICAN ASSASSIN* and *KILL SHOT* told the story of Rapp's origin, Flynn's latest places him very much in the here and now. Rapp is an uncompromising irresistible force capable of knocking any object in his way off its pins. *THE LAST MAN* finds Rapp in his 40s, extremely capable, but physically if not emotionally vulnerable as he faces enemies from within and without while in pursuit of a security breach that threatens to expose CIA assets to America's enemies throughout the world. The novel begins in Jalalabad, Afghanistan, with Rapp in the middle of the aftermath of carnage. Such is not an unusual place for him; what is unusual in this particular case is that he is not the cause of it. The situs is a safe house set up around Joe Rickman, the head of CIA clandestine operations in Afghanistan; the house has been compromised, with Rickman's bodyguards murdered, his all-important computer gone, and Rickman himself missing, an apparent kidnapping victim. Irene Kennedy, the director of the CIA, has tasked Rapp with investigating Rickman's abduction and finding him, no matter what the cost. Rapp is disturbed by what he finds; there are some things that simply do not add up at the scene. He is not entirely sure of what has actually occurred; what neither he nor Kennedy realize, though, is that Rapp is slowly being drawn into a trap, one in which he will be confronted with one of his deadliest adversaries, someone who has cost Rapp more than perhaps anyone ever has.
