My son is a guitarist and bought this book using my account. This is what he had to say: "To all those guitarists out there or if you are a gnr fan like me, this book is an absolute must buy. Its great!"

I had one of these years ago when I tried playing guitar. I gave up and so I gave the book away to a family member. Well Im giving guitar a second shot and I had to get this once again. Can't go wrong with GnR. Easy to read tab layout but difficult to play for beginners. Take one lick at a time and you'll have those chops down like a pro. ;)

don't buy this expecting to see the songs exactly the way Slash and Izzy played them. Most notably sweet child of mine, you can tell this book is playing the notes on a totally different part of the neck, I understand that this is a minor problem because it is the same notes but im just saying if you want to play these songs like Slash and Izzy I would watch videos on youtube or something. That being said it has a bunch of songs, I was really excited to be able to mimic the sounds of my idols and I think tab books are very useful.

This book is perfect for gnr guitarist fans. If your a beginner or expert with guitar this book is still perfect for any guitarist. Accurate notes (no notes were wrong). Teaches you not just lead guitar for the songs but all the other guitar parts to. Tablature and Sheet music are included. 2nd to last page has the meanings of music symbols and how to play tab if you dont know already. Comes with Gnr most famous song Sweet Child O' Mine. I love this book.

This is a great tablature book, which also contains sheet music and additional tablatures for the second and third guitar parts. In songs that include piano and other instruments, the book transposes the parts to guitar, and also puts them in tab form as well as sheet music. Obviously, it includes all Slash's difficult (yet not impossible) solos, and vocals and lyrics from Axl, too. All in all, it's a great book that I would recommend to any guitar player (not beginners of course), or even just any Guns N' Roses lover.

If you grew up listening to this band and want to play their music, this is the best G`n`R` tablature available. This anthology allows you to rock on with the tunes embellished by yourself now. Enjoyed it thoroughly.

a complete and honest tab! good for advanced guitarist! the only reason I didn't give it 5 stars is because sometimes the tab is confusing when there's 3 guitars going on at the same time
