Connect 1-Semester Access Card For Microeconomics

Synopsis

McGraw-Hill Connect is a digital teaching and learning environment with a fully interactive eBook that saves students and instructors time while improving performance over a variety of critical outcomes. Connect offers rich content, abundant assignment types, and flexible policy options along with powerful study tools that adapt to individual student understanding and need. Connect can generate a number of powerful reports that let you quickly review the performance of an individual student or an entire class.

Customer Reviews

If I could give 0 stars I would! I ordered this access code for my online micro class, when I recieved it the connect plus said accounting, well I figured that since it was all McGraw Hill products that the codes were universal no matter what the course was. I was wrong, when I went to use the code it said it was only valid with the accounting course it had listed on the front, so now I have to order a new code and get a late start on my class. All they did want out a new sticker over the barcode that listed it was for accounting and replaced it with one that says micro economics. If you are looking for connect plus microeconomics I suggest going to the McGraw Hill website and just ordering it off there, it is more expensive but it's gaurenteed to work and you'll actually get what you ordered. DO NOT ORDER FROM THIS SELLER, it's false advertisement and quit frankly many people do not have the time for this. What ever happened to good ethics verses a quick buck? In the picture in the top left corner is the sticker they stuck over the one in the lower right.

Works perfectly for my microeconomics class (I bought it because it was required). Awesome learning tool and way cheaper online than in the bookstore.

Nice price. I was able to get it in time. Overall the actual software is not really exceptional. I have had a hard time using it, but maybe it is because I use Chrome OS. Overall good product.

Item did not contain the textbook as the advertisement led to believe. I was misleading. I returned the item.

This code is much cheaper than. The code worked perfectly. I saved lots of money.

Exactly what I needed. It also arrived in a timely fashion.
