Secret Of The Phoenix: Omega Force Volume 6

Synopsis

Captain Jason Burke has begun to suspect that the random attacks on his ship and crew over the last couple of years may not be so random after all. Evidence is mounting that there is something on the Phoenix...something that powerful factions will stop at nothing to get their hands on. While Omega Force races to find out what is hidden on their ship that is causing so much trouble they also must figure out why such powerful enemies bent on obtaining it. They'll need to rely on old allies, and a few old adversaries, to unravel the mystery that's been hovering over them since they first stole the gunship from the treacherous Deetz so long ago. The crew is used to fighting long odds, but will they be prepared to sacrifice everything to keep the Phoenix's secret from falling into the wrong hands?

Book Information

Audible Audio Edition

Listening Length: 7 hours and 53 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Audible Studios

Audible.com Release Date: October 13, 2015

Language: English

ASIN: B0161EHM9U

Best Sellers Rank: #84 in Books > Audible Audiobooks > Science Fiction > High Tech #375 in Books > Science Fiction & Fantasy > Science Fiction > Hard Science Fiction #1055 in Books > Science Fiction & Fantasy > Science Fiction > Space Opera

Customer Reviews

Ever since Deetz bought it back in part 3 and parted with his cryptic message to Lucky, there has been both the knowledge that this was coming. There has also been the curiosity/hope from fans that one day, Dalzelle would get around to telling the story that he had hinted at. This is that story, what was Deetz getting at? What is the great mystery? What is the Secret of the Phoenix? No Spoilers â Sorry! But I will tell you that you will not see it coming, it is far bigger than what you expect, and Dalzelle has a flair for story telling that makes anything he writes well worth reading. It's not just that he tells a great story that is fast paced, action packed with some wicked humour. Dalzelle goes to the effort to make sure that he has done the research so that his story is believable (for a Sci-Fi story obviously), that the tech is sound, that the story flows with his other books and is

consistent etc. Having read several others in this genre, I hate it when you come across stuff that does not come up to scratch, when authors have not made the effort to make their technology plausible or within the bounds of physics. And this is where Authors like Dalzelle stand out from the crowd. Added to that is his Characters. Whether it is these group of hooligans or those from his other series The Black Fleet Trilogy, his characters are written with such believable ease. By this I mean that you can easily relate to them, as you read about them, you can see them, understand their actions and behaviours as Dalzelle has made them easy to believe, even though a large majority of them are alien. And this is something that is difficult to do, take something that is alien, and still have us, the reader, relate to it. This is the mark of a good Author.
