Customer Reviews

This book only contains 14 printed works of Jaco Pastorius from Weather Report with bass legend. These works from Jaco Pastorius contain many Techniques which for me both inspirational and challenging and will take many years to learn and master. Customers who may look to purchase this item should be aware that it contains Jazz fusion bass music from Jacos performances with Weather Report but i'm sure they will be happy to secure Jaco Pastorius The Greatest Jazz fusion bass player. Another Hal-Leonard book of Jaco Pastorius to compare to is Volume 116 Jazz play along book.

Transcriptions of Weather Report Jaco with Tab - numerous errors in the transcribing are problematic but more problematic is the absence of lead sheets to go along with the bass parts; ok but should be so much better.....

Jaco es fenomenal!! En cualquier canción puedes ver su genialidad, muy buenas transcripciones!

As advertised and the notation is as close as I have seen for Jaco material. Buy it!

Okay, first--you have to have skills needed to not only read music and tab, but the dexterity and articulation needed to tackle material other than the most basic bass lines. Secondly, you will need the CD's or source material needed to pick up on the nuances that Jaco employs through dynamics, touch and feeling. Thirdly -- you will need time. Acquaint yourself with the music then start hitting the book. Not wanting to play anything note for note like some sort of automaton, I choose rather to go for the feel. After all, can one really achieve each individual percussive attack or note? I hope not! If you can then buy an old beater Fender Fretless, drop in .9mf Cap, make sure the pickups supply the necessary Low, Mids and Trebs... change your roto-sounds weekly pick up an acoustic 360 amp and go for it. If not... go for the feel. The selections are good and cover a wide range of material and styles. It is enjoyable to get inside the music a bit.
