The Bear And The Dragon

Synopsis

Newly elected, Jack Ryan has found that being President is not easy: domestic pitfalls await him at every turn; there's a revolution in Liberia; the Asian economy is going down the tubes; and now, in Moscow, someone may have tried to assassinate the chairman of the SVR - the former KGB - with a rocket-propelled grenade. Were the potential assassins political enemies, the Russian Mafia, or disaffected former KGB? Or is something far more dangerous at work here? While Ryan dispatches his most trusted eyes and ears, including black ops specialist John Clark, to find out the truth of the matter, forces in China are moving ahead with a plan of truly audacious proportions. If they succeed, the world will never look the same again.

Customer Reviews

As an avid Clancy fan, who's read all of his books and owns most of them in hard cover, I found this book to be a bit of a disappointment that doesn't even approach Clancy's normal high standards. Its a definite "must read" for Clancy fans, but for everyone else I'd highly recommend skipping this one at least until reading most of Clancy's other books. The plot of the book, as the title implies, focuses on Russia and China, but mostly the latter. In a nutshell, a diplomatic incident plus some trade negotiations with the U.S. gone badly awry lead China to seek to take advantage of some new found economic luck by their neighbors to the north. There are a lot of parallels between US / Japanese relations leading up to WW2. along the way, there are assasination attempts and spycraft, but at a high level that sums up Clancy's latest effort. First, the book's bad points: 1. Obviously Clancy now considers himself above editors - cause its obvious this book was not edited

at all. There are at least 7 or 8 occasions where characters thoughts are repeated, verbatim, 2 or 3 times over the course of the book (for example, Ryan's belief that 'Daughters are god's punishment to fathers for being men' ... Ryan 'thinks' this about 4 different times during the book) and there are a fair amount of spelling/typo type errors that detract from the enjoyment of the book. 2.

Five minutes ago, I told my wife and sons that this book was a HUGE disappointment. Being a big fan of Clancy, I could not wait for this book to come out. Usually it takes me at most, 3 days to read one of his books, but I am STILL working my way through this one after 6 days. So when my wife asked me why, I told her that this was a 400 page book stretched out forEVER. The first thing it reminded me of was when Ludlum started taking himself too seriously and writing huge boring books. So I told my wife that I was going to go online and check out the review's to see if my comments were indicative of others who read the book. And sure enough, the second review I read by I think the name was Lane Shelton, could have been written by me as the comments were ALL the same as mine. How many times do we have to hear this character ruminate that he didn't want the job, and doesn't know how to do it, but for the sake of the country he will do it. SHUT UP already, we got the point in the last few books but banging us over the head again and again and again is just ridiculous. And Clancy seems to be spending the entire book pontificating his moral authority and political beliefs thru this white knight who can do no wrong. I could not believe how repetitive he was in this book and I am only at page 500. It seems that he says the same sentence at least 3 different times, and he seems to be doing that on more than one sentence. In addition, Clancy repeats his political views, for example on abortion, over and over as if he hadn't told us yet. Tom, how many times do we have to hear about the 'previous' presidents preoccupation with sex.
