# Speaking Truth To Power

## Synopsis

After her astonishing testimony in the Clarence Thomas hearings, Anita Hill ceased to be a private citizen and became a public figure at the white-hot center of an intense national debate on how men and women relate to each other in the workplace. That debate led to groundbreaking court decisions and major shifts in corporate policies that have had a profound effect on our lives--and on Anita Hill's life. Now, with remarkable insight and total candor, Anita Hill reflects on events before, during, and after the hearings, offering for the first time a complete account that sheds startling new light on this watershed event. Only after reading her moving recollection of her childhood on her family's Oklahoma farm can we fully appreciate the values that enabled her to withstand the harsh scrutiny she endured during the hearings and for years afterward. Only after reading her detailed narrative of the Senate Judiciary proceedings do we reach a new understanding of how Washington--and the media--rush to judgment. And only after discovering the personal toll of this wrenching ordeal, and how she copes, do we gain new respect for this extraordinary woman. Here is a vitally important work that allows us to understand why Anita Hill did what she did, and thereby brings resolution to one of the most controversial episodes in our nation's history.

## Book Information

Hardcover: 368 pages

Publisher: Doubleday; First Edition edition (September 15, 1997)

Language: English

ISBN-10: 0385476256

ISBN-13: 978-0385476256

Product Dimensions: 1.2 x 6.8 x 9.8 inches

Shipping Weight: 1.4 pounds

Average Customer Review: 4.7 out of 5 stars [See all reviews](#) (46 customer reviews)

## Customer Reviews

I am so glad I read this book - it gave me insight into what a wonderful woman Anita Hill is in explaining the ordeal she went through in testifying at "the hearings." I must admit that at the time, I

didn't believe Hill's testaments; she appeared nervous and uncertain whereas Thomas appeared very sure of himself, was outraged, and even went so far as to cry before the Senate Committee and television cameras. Of course, I now realize that was just an act. Anyhow, I thought that after the hearings were over, Anita Hill went back home to Oklahoma and went on with her life, the ordeal forgotten. After reading this book, I had no idea that Hill endured further harassment from students at the university where she taught, faculty, the media, and people who never knew her nor she them. It was downright outrageous and disgusting. Hill writes eloquently about her roots, her upbringing in Oklahoma, her years at Yale Univ. Law School, and her job at the EEOC where she worked under Clarence Thomas and the harassment she endured from him, her subsequent career change all the way up until the hearings. It's all interesting and worth reading. Anita Hill is the catalyst for which the laws of sexual harassment have changed and claims for which are now taken very seriously. It is very unfortunate that she had to take such torment and emotional brutality as a result of it, as if harassment from Thomas wasn't enough in and of itself. That Thomas is now sitting on the highest court in the land for life, knowing the content of his character and demeanor, is indeed disturbing. But I hope that deep inside he is sorry and feels the utmost remorse and guilt for his mistreatment of Anita Hill and all his other victims. The truth always come out - maybe not today or tomorrow - but eventually it does.
