Fred & Rose West: Britain's Most Infamous Killer Couples (True Crime, Serial Killers, Murderers)

Synopsis

Fred & Rose West - Britain's Most Infamous Killer Couples

On the 24th of February 1994, police knocked on the door of an aging house in the English town of Gloucester. They'd come to serve a search warrant in the case of a missing girl – the daughter of the house's inhabitants. What they uncovered would shock the world: decades of child abuse, an underground torture chamber, and a burial ground containing the bodies of the spent victims of the torture-- including that of the missing daughter. The address was 25 Cromwell Street, and these discoveries would earn it the moniker "The House of Horrors".

At the end of the investigation, the number of the murdered was twelve – all young females, including one daughter and one stepdaughter. The couple responsible were Rosemary and Frederick West, and this book will tell you their story. We'll start from the very beginning, with the killers' childhoods and upbringings, exploring in detail the factors that contributed to their later depravities. From there we'll detail the crimes themselves, following the tragic tales of their victims, including the mechanisms that led them to their grim fates. We'll examine how the full extent of their crimes was uncovered in the subsequent investigation. Finally, we'll dig into the malignancies both surrounding the killers and within themselves that drove them to perpetrate their heinous acts.

This book is not one for the faint of heart. It enters into graphic details that may upset those of a delicate constitution. It is a true life report on real events. If you believe as I do that we are better served knowing and understanding the full depths of darkness the human soul is capable of, and if you are able to stomach this knowledge, then read on and discover the story of one of Britain's most infamous killer couples. Scroll up and click on the Buy Now button at the top of this page, and begin looking into the life and minds of Fred & Rose West.

Customer Reviews

This free book from was a look at serial killer couple, Rose and Fred West, whose dozen (or possibly more?) victims finally received justice for their brutal deaths. The book was light on details, alluding to BDSM, rape, and dismemberment, but the events were watered down so most people could read the book without too much trouble. I was disappointed in the author's personal opinions and queries to the reader, instead of keeping to known facts and police reports. A good free read if you know nothing about the murders, but I have no idea how this reached "Best Seller" status, the writing was average, and the events felt pulled from headlines rather than researched.

I must say, I was both petrified and disgusted with the West's criminal acts. Only depraved animals like them can perform such horrific tortures and deaths upon innocent human beings. Without revealing more information, family members will never receive their proper justice which is so very heartbreaking. Both Rose and Fred got what they deserved. Thank you Mr. Green, I appreciated every word in this book. This is highly recommended

This book was very intense, and I can't say that I actually "enjoyed" reading it. However, once I started it, I couldn't put it down! The fact that this could happen in relatively modern times (1960's, 70's and 80's) is overwhelming.

I am a frequent reader of true crime. As a psychologist it follows that I would be interested in learning what constitutes the mind of violent members of society. This book is the least insightful of any I have read. It is nothing more than a reiteration of information that might be found in a newspaper account and shows a distinct lack of research. Add some Psych 101 guesses and you have it. Not worth the time.

I just finished this powerful book. The writing was excellent. I am an avid reader and enjoy mysteries very much. Knowing that this was a true story was extremely disturbing. The only reason I didn't give it a 5 rating was for this reason. Kudos to Ryan Green

This book is poorly written and has apparently not been checked for grammatical errors. I can't speak to the accuracy of the story, but if pressed for my opinion then I would say that based on the writing style and presentation I am skeptical.

Great rendition of this sad tale. Learned a lot about the psychological backgrounds of the 2 serial killers not previously discussed in tv shows about the pair. I would like to see a 2nd book based on the lives of the children of this couple (at least the ones who know they were part of this family). It would be an interesting study to see how the dynamics of their childhood and subsequent arrest of their parents impacted their lives and their methods for parenting. Well written and easy to understand.

It's bad enough when one molester/ murderer is found in a country, but this is a married couple who worked together to harm strangers, acquaintances and their own children. This book deals with the details of the Wests' evil, and talks about why they became the monsters they were.
