Happy Birthday To You!

Customer Reviews

"I wish we could do what they do in Katroo" Thus begins Dr. Seuss's amazing conception of the birthday party EACH person should have. Guided by the special brainy bird, the Birthday Honk Honker, you will find yourself in the middle of a marvelous day. You are awakened by the bird, "Wake Up! For today is your Day of all Days!" He then heads for your bed. "He knows your address . . ." and quickly comes to give you the special birthday handshake. This involves touching your right index finger with his equivalent digit while you touch your left big toe with your left index finger (while he mimics the same motion). Throughout, Dr. Seuss makes it clear that just being born and being you is all that is required to deserve such classy treatment. "If you'd never been born, well what would you do? . . . be? Why, you might be a WASN'T." Your day includes a trip through the Birthday Flower Jungle while being carried in a boat through the air by Funicular Goats. The flowers smell like licorice and cheese. For lunch, you eat hot dogs, rolled out on a spool, for an endless meal. With so much mustard on you, cleaning off in a Mustard-Off pool is required. You sing loudly, "I am lucky!" And that's before you go to the Birthday Pal-alace with its 9,403 rooms to play games in. You get to make such a mess that it will take 20 days just to "sweep up the mess." Then, you meet drummers, strummers, zummers, and of course, plumbers. Dr. Derring's Singing Herrings spell out, "Happy Birthday to You." Then, you get the most amazing cake. And all of this because, "There is no one alive who is you-er than you.

When do birthday's become just ordinary days? Is it after the age of 30? Or maybe even before that? And why do we tend to cringe when we think about our birthday? Dr. Seuss, in his classic book "Happy Birthday to You" reminds us that birthdays are meant to be celebrated! At least they are in Katroo...where the Birthday Bird gives the "hi-sign-and shake just for you". So begins the birthday adventure which includes eating whatever you like (even fettucine alfredo or a chocolate-marshmallow milkshake if you so desire, or in the case of the book, hotdogs with plenty of mustard) It's also a day of entertainment, like being pulled through the air by "funicular goats" (you have to see 'em to believe 'em) and gifts (of course cost is no object) topped off with a FABULOUS party at the Birthday Pal-alace complete with a serenade by Dr. Derring's Singing Herrings (singing, spelling herrings that is!) And that's just a little taste of this Seuss tale... one that was read to me growing up, on my own birthday. On the big day, Mom would wake me (and each of my siblings on their respective birthday's) with a reading of "Happy Birthday to You" and a piece of birthday cake for breakfast. Cake for breakfast you say? Of course! It certainly started the birthday-day out right. It's a tradition that I continue with my son. Because birthday's are special and deserve to be treated

as such. Whether you're 3, 43 or 103, how often do you have a day that celebrates YOU? Start a tradition in your family and read "Happy Birthday to You" on the morning of a birthday (and what the heck, maybe throw in a slice of cake and some ice cream too...they'll love you for it!
