Customer Reviews

My 22 month old granddaughter loves this book. This pictures are bright and easily catch a toddlers attention. The narration is short and not too much for an impatient toddler who wants to turn the page. I've bought several of the books in this series. She loves them all!

What child doesn't like dinosaurs? Good book for reading to very young children.

My son love it, he like to make the dinosaur noise but he didn't like the ending. Pretty good book to start.

My son loved reading it to me. We enjoyed the pictures. It was sorta like a comic book he said.
