Customer Reviews

My four-year-old daughter wanted to help me write the review so these are her words: "I love the

dinosaur book. It was funny he didn't like vegetables. But I do like them. It was (also) funny when he tried to hide under the table. He was too big."Now, as her father, I would like to add that this was an enjoyable book to read to my children. We will be looking at others by this author. Keep up the writing!

My six year enjoyed the lesson. It was an easy read and entertaining. Got to get it for free thanks to Kindle buffet, so can't beat the price.

My Dinosaur is Scared of Vegetables Plus 5 is such a wonderful rhyming book. The stories are adorable and the illustrations are like little colorful paintings. The book is a delight to read with a small child. Everyone loves dinosaurs and so it keeps the child entertained as they learn that vegetables are a good idea for a healthy body. the Dinosaur is a great addition to the book. He trembles at the sight of vegetables and the telling is very funny. The other stories are also clever, fun and colorful. Each one was a big hit at this house. The Clownfish and the Great Shark was another one of the amazing stories. The illustrations of the little clownfish and his environment was beautifully done. Jefferson Tugboat was another cute story. The beauty of the artwork continues to enhance the joy of the book. The story of a little tug boat that wants to grow up to be a bigger ship. We loved Jefferson. The six year old loved all of the stories and wants to read it over and over. That is a good sign of a great book. Lily Lexington is turning into one of our favorite children's book authors.

I got this book for free after seeing it on a free book alert. I thought that my 5 year old would like it and I wanted to convey the message about why eating veggies is good for you. I was familiar with the author as we already have "My dad is a superhero", "Luna, the night butterfly", " a firefly tale", "the little toy unicorn, "the little duck and the great big pond", and "the day lady Lost her spots" in our reading rotation. My daughter liked the book and I would recommend it to others.

What an adorable picture book with a strong message! Jack and his big, red dinosaur do not like vegetables. At all. They hide in the closet. They hide under the living room table. They go to bed with no dinner. They eat no breakfast in their refusal to eat vegetables. The dinosaur is scared of vegetables, of course! As a result, they both don't fare so well the next day. The dinosaur is sleepy and Jack is slow at his game. After the not-so-good day, Mom has a tÃfÃte-tÃfÃte with the dinosaur and they come to an agreement about vegetables. Mom explains that vegetables have

vitamins that our body needs to function and do well. This is a wonderful book to use in helping to teach children why it is important to eat vegetables. It is a nice segue into a nutrition lesson.

Collection of several stories. First is OK, others are not well written or illustrated. This has the issue many of these books have, the level of detail on the graphics is poor and the text is often disconnected from the text, makes it difficult for little ones to follow. Add on that the images are small part of the page, text a small part, and then an equal amount of white space, really poor formatting.

I enjoyed this ebook and thought it was a well-written story designed especially for the very fussy children's eater. With tremendous colorful illustrations and nice sized print as well. Avery clean reads ebook. Because of all this I feel that this ebook should have a five star rating. I received this ebook for free and in exchange for being able to read and view it I have now given it an honest review. Super work Lily! By Angela

This story is short and cute, just like the little kids it is intended for. In "My Dinosaur is Scared of Vegetables" by Lily Lexington, Jack's pet dinosaur is afraid to eat vegetables. In the beginning we find Jack and his dinosaur hiding in a closet, with the dinosaur whimpering and sucking his thumb because it is dinner time. Neither of them wants to eat their vegetables. Jack explained why he refused to come to dinner, but his mother sent the dinosaur to bed, and Jack along with him. Jack mumbled that he didn't care if he never ate again. The next morning Jack and his dino went down for breakfast, looking forward to the day's baseball game. But instead of his usual breakfast, Jack found only vegetables on the table! Jack's dinosaur ran and hid under a table in the family room, while Jack's mom tried to get him to eat his vegetables. But Jack still refused, claiming that his dinosaur was afraid. So Jack's mother took them to the baseball game. Once there, the dinosaur fell asleep and Jack played terribly. Back at home, Jack's mother decided to have a serious talk with the dinosaur, outside. After the talk, Jack's mom came in and told Jack that she and his dinosaur had figured out why Jack played so poorly that day: he was lacking the vitamins in the vegetables he refused to eat! Jack's mother handed him a carrot. To Jack's surprise, his dinosaur did NOT run and hide. He actually encouraged Jack to take a bite. When he did, he was surprised to find the carrot tasted pretty good after all. Even his dinosaur had agreed to try broccoli and peas, and from then on Jack always ate his vegetables. This story is written in rhyme, with large, attractive graphics on each page; just the combination toddlers and pre-schoolers most enjoy. This tale is a clever, cohesive

story with a plot, a purpose, and appeal. Your youngster is sure to enjoy having you read this story to him; he might even eat his vegetables!
