Customer Reviews

This book should be titled "Piano OR Piano Accordion." It is not a duet book. The music is written in piano style, with peculiar notation for the accordion. Instead of writing F7 over the chord, for example, there is a little "3" that indicates this is a seven chord. I play the accordion, and was hoping for a true duet book to play with my piano friend. There are many good old standard polkas in this book, so I will keep it, but I'll probably go through and write in the chords for myself.

No guitar chords. My fault for not realizing this when I purchased the book.

What can you say - Lawrence is a household name for the polkas
