Customer Reviews

I purchased this book with the intention to get into Mourinho's head but it was a total disappointment. No revelations or anything not known before. It is a simple photographic summary of his career. Total let down.

This is a picture book...

Expected a lot more, with all those pictures it's barely a 30 minute read and it's not going in Jose's

mind at all. Really disappointed.

it's just a bunch of pictures without anything worthwhile to read. in fact, it has almost no text.

Excellent book with great content and nice photos, amazing under Kindle and iPad Pro!

Thought it would be a biography but it was just a photo book.
