I really love tattoos so the book is automatically going to be pretty cool. However I was a little dissapointed with some of the pages and found that I kind of do not like a bunch of pages in the book that well. However, for how cheap it is it was worth the buy. I enjoy it quite a bit still.

This is a wonderful coloring book! I love the content and the paper is nice and crisp!! I use primacolor pencils, so if you're using markers, you may need to use a sheet of paper under to prevent bleeding. The pages are nicely perforated too!!!! In my attached photo, I did the one on the left, and my friend colored the roses on the right and we hung them on the fridge! :) As you can see, they are great for any coloring "level". Not too complicated, but enough to keep my attention!!!!

Love some of the pages, but there are several that I cannot tell what they are. But the others are fun

to color. I took pics of some I colored and some I have not yet.

Sheets are thick enough and are one sided which means you can use markers/wet methods to paint without the worry of destroying the design on the back of the page. Each page has cutting marks to remove it from the book for easier coloring. Have been using it and enjoying it so far.

Coloring has always been a hobby of mine and I have fallen in love with Creative Haven's collection of books. Pros:-Perforated sheets for easy removal-Designs are not super time consuming-Wonderful Quality Cons:-I would like to have more pages in a book

great book. sent this to my husband in prison and he absolutely loves it.

Best tattoo coloring book available! I've purchased several and this is my favorite. Beautiful images created by a real tattoo artist. Not a single one that I wouldn't color. I used prisma color premiere and verithin. Planning on get some of the images tattooed on me.

I love these adult coloring books, I find them so therapeutic! A few of my friends had been wanting them as well so I ended up getting a variety of them for my friends as well, this one specifically has beautiful pictures and I just knew it fit one of my friends artistic personality so well as well as her love for tattoos it was perfect and she absolutely loves it! She uses it and says its just so calming.
