The Survivor

Synopsis

Top-secret data has been stolen from the CIA, and the only man who knows its hiding place is dead. CIA operative Mitch Rapp must race to find the classified information in this blistering novel that picks up where *The Last Man* left off in Vince Flynn's New York Times best-selling series. Joseph "Rick" Rickman, former boy wonder at the CIA, stole a massive amount of top-secret and hugely compromising intel concerning classified operations all over the world, offering it (and himself) to the Pakistani secret forces. Only his plans went awry when CIA director Irene Kennedy sent Mitch Rapp to hunt him down. It turns out that killing Rickman didn't solve anything - in fact the nightmare is only intensifying. Rickman stored the potentially devastating data (CIA assets, operatives, agents) somewhere only he knew, and somehow, from beyond the grave, he still poses a mortal threat to America. Now it's a deadly race as both the Pakistanis and the Americans search for Rickman's accomplices and the information they are slowly leaking to the world. Will Rapp outrun and outthink his enemies, or will the Pakistanis find it first and hold America hostage to their dream of becoming the world's new nuclear superpower?

Rapp is back and he is as strong as ever in *The Survivor*, the return of Vince Flynn's Mitch Rapp series. Of course for fans of Rapp and Flynn, *The Survivor* is more than just your typical novel. With the tragic passing of Vince Flynn in 2013 many were left to wonder if Flynn's final novel *The Last Man* would be the last time we saw Rapp. Thankfully for fans of the counter-terrorism operative,

Rapp has returned do to the outstanding work of novelist Kyle Mills. Up front I have to say that I am a huge Flynn fan. I started reading Flynn in the summer of 2000 and found him to be one of the best novelists of the past two decades. To me he helped define what a thriller should be in the post 9-11 world. As a result while I was thrilled to hear Rapp would return, I was also very wary if anyone could produce a Rapp novel anywhere near the quality of what Flynn wrote. Well I'm thrilled to say Kyle Mills has delivered a Rapp novel that exceeded everyone of my expectations. To me The Survivor is a top 5 Rapp novel. Mills did something I didn't think was possible, he made me forget that The Survivor wasn't written by Vince Flynn. The tone, style, pace and voice of the novel is Flynn. I'm not sure how Kyle Mills pulled this off but I can't compliment him enough for this. The task of carrying on for Flynn must have been beyond stressful. The fact that he produces such a home run of a novel in his first attempt with Rapp makes me beyond thrilled to see what happens in the next novel. The Survivor checks off all the must haves of a Mitch Rapp novel. The pace and thrills are non-stop. The action as always is top shelf and among the strongest in the genre. In particular I have to give Mills an amazing amount of credit for what I believe to be one of the best action set pieces in Rapp history.
