Last Minute GMAT Grammar: Proven Techniques To Increase Your Sentence Correction Score -- Overnight!

Synopsis

"Even as a native English speaker, I struggled with the sentence correction section whilst prepping for the GMAT exam. This is an excellent and thorough step-by-step guide that helped me tackle many of the common and less known grammatical errors. It specifically targets the recurring themes within the GMAT exam that are proven to cause the most difficulties for test-takers. It identifies and explains in a clear and concise manner how to go about tackling these sentences and provides plenty of good examples. I would highly recommend this guide to all GMAT candidates seeking to boost their scores in the verbal section!" --Bianca Roden, UK

"Awesome book! Recommended by a friend when I recently had to cram for a GMAT test, this more than any other got me through the test. As a dual English/Italian speaker I needed something clear and which I could study overnight."--JP Rebolini, UK

Customer Reviews

After reading countless incredibly dry books on improving grammar for the GMAT, I stumbled across Rowan Hand's book on a recommendation from a student who was a previous client of his. Rowan's writing style is clear, concise and engaging. The book reads quickly but is packed with content--it

makes the relevant grammar accessible to read every time. The book is fun to read, so even though this topic requires repeated reviewing, you won't be put off by dry or boring writing. I set aside a couple of hours every two weeks or so to simply reread the book, and each time I noticed something that I hadn't before. In fact, I gifted the book to my mother, who isn't taking the GMAT, of course, but feels that her English could use some improvement. She took to the style immediately and told me she has really enjoyed the book!

I found this book to be an incredible tool to help me with my test preparation. It's a very fast read and fantastic reference. The topics are broken down in an easy to understand fashion and I find myself going back frequently to get quick answers. The conversational style is also appreciated.

My son is going to pass GMAT in 3 months, so I try to help him somehow. I was searching for some good techniques on the internet and I found this book on . So I gave it to my son, he briefly read it and said that it's full of helpful advice. Thanks to the author for such a nice read !

This book definitely gave a lot of valuable information without adding useless content. I would recommend this book to anyone needing a quick lesson on sentence correction.

A really good review of really nuanced rules.
