## Customer Reviews

Wish I had read the earlier reviews. You would think I would have read them, I guess not. 11/1/10 I received the incomplete set - the 2nd part (for violin), was not sent with the order. You would think I would have corrected this with all of the bad reviews. Makes me really doubt doing business with you in the future. I'll do business with a company that understands music like sharmusic!

I had some concerns after reading others' previous reviews that they received a part of the set but I ordered it. It came with the two books as a set (the violin book + the violin and piano combined book), which was exactly what I was looking for. The book has a nice combination of the level and the depth that young violinists can get to. Very pleased with the purchase!

This series is an excellent supplement to the standard Suzuki violin repertoire. The solos supply

welcome variety and, like etudes, introduce or enhance skills beyond the demands of the Suzuki pieces. With a good teacher, this series can round out the progression of skilled young violinists. Of particular note, since the reviews are confused or conflicting on this point, I can confirm that my order of this item, Solos for Young Violinists, Vol 2, includes two books (1) the piano part (with the violin part in smaller notation above it), and (2) a separate violin part for the soloist. It does not come with the CD, of course, which must be ordered separately.

This is supposed to come as 2 books - the violin, and the violin with piano. I only received the violin part. I called , but got nowhere. I also e-mailed them and received no response.

I received both the piano and violin books, as expected.

Very confusing, I wish I had read the previous reviews and had avoided the same problem as other people. I was wanting the Violin part only not the piano accompany part. I can't seem to get the right book, and the seller say they sent the correct book, but it was listed under the violin part NOT the piano/violin book. It is very difficult to play the violin part on the small line about the piano parts. Very disappointing.

A great companion to Suzuki Book 4 - 5 mid level. Teaches fourth finger pizz to build pinky strength. Gently eases into 5th position and some double stops and harmonics.

I ordered this book in September. The book should come with two books. One is for violin and another one is for piano. I got one for piano. I sent email to seller twice but no response. On , when you click the link on the book, there is no information to tell you there is only one book and it is not suppose to be. I am not satisfied with seller. Hope they can correct mistake and send me another part of the book. I am looking forward them to take the action.
