A Heartbreaking Work Of Staggering Genius: A Memoir Based On A True Story

Synopsis

"Exhilaratingâ. Profoundly moving, occasionally angry, and often hilariousâ. A Heartbreaking Work of Staggering Genius is, finally, a finite book of jest, which is why it succeeds so brilliantly" (The New York Times Book Review). A Heartbreaking Work of Staggering Genius is the moving memoir of a college senior who, in the space of five weeks, loses both of his parents to cancer and inherits his eight-year-old brother. Here is an exhilarating debut that manages to be simultaneously hilarious and wildly inventive as well as a deeply heartfelt story of the love that holds a family together.

Customer Reviews

Maybe I'm just too old. Maybe I'm just not cool or hip enough. It has to be me, right? After all, this book was a book of the year according to the Los Angeles Times, the Washington Post, and USA Today among others. But I found it unreadable. Really. Sixty pages into this book and I wanted to just give up on it. Both of Eggers' parents died of cancer within a few months of each other and this is his memoir of their death and his raising of his younger brother. It actually starts off OK but fairly early in the book Eggers runs out of things to say. This probably could have been a good short story but at over 400 pages it just drags on and on endlessly.
