## Customer Reviews

This review is for the product Ronaldo: Rise of the Legend. The incredible story of one of the best soccer players in the world. Kindle Edition. I got this book for my 11 year old son who has played

soccer since he was 4. It was written easy enough that he could read it. He looks up to the professional soccer players and learn quite a bit from this book. It really highlights the fact that he wasn't just born with star talent without tons of practice. It also highlights his struggles since growing up. This would be a nice gift for anyone young or old who enjoys biographies. I would have included the names of the chapters for you, but it appears my kindle unlimited app is no longer valid. If you have found this review helpful in anyway than please like it below. I was given this book for free in exchange for a complete and honest review of this product. It has not effected my thoughts of the book. Happy reading!

I enjoyed this book. I have two sons who have become soccer nuts, so I am still learning my way around the soccer world. I had no idea that Ronaldo came from very humble beginnings, and that he made soooo much money. Soccer money is crazy. It is important to understand that this book is written for and marketed to kids, not adults. I usually wouldn't read this through, but I enjoy a good rags to riches story, and Ronaldo has intrigued me. The guy got expelled from school at 14! Actually some interesting stories in this book, and would be a good read for the soccer fans in your family. I received this book at a discount in exchange for my honest review. All opinions are my own.

This is a pretty good kids book, but I'm not sure older teens or adults would truly enjoy it. My family loves soccer, all the European blood I suppose. My oldest brother was never a fan of Ronaldo- but I encouraged him to read this book to learn more about him before judging him. His opinion made a 180 turn. He thinks he's great now, considering he got expelled from school at the age of 14 and truly is a rags to riches story. The book even has pictures in it, for those kids with shorter attention spans like I had. Anyways, I think this book is really great if you truly, truly love soccer and want to know those kind of details about a soccer players life, like my brother! For me, it's 3/5 stars :) Please keep in mind the kindle version is free if you try out Kindle Unlimited for free!! Just remember to cancel Kindle Unlimited before you have to pay for it. The seller of this product has provided the product at a discount in return for a truthful review (Even though the kindle version is already free- so don't let that sway you). I was not compensated in any way other than my honest opinions and evaluations of the product in question and I am not required or forced to provide a positive review in return for the discount I received. I thoroughly examine and utilize each product prior to posting a review and an examination of my reviews on this site will clearly show that I am completely honest. Thank you for reading this review and good luck with your purchase!

Good Book if you are a CR7 Fan. This book talks about Cristiano Ronaldo's life from going up in Madeira to where he is today. If you enjoy soccer and want to read his biography I would recommend this book. It has pictures however I do not think it is for kids, but as other reviewers state, more for teenagers and adults. Overall a good read because I like the way he plays. We received this product with a discount from this seller in exchange for my honest and unbiased review. These are my opinions on the product. Different people may have different opinions and feelings. I am not receiving any other monetary compensation and I am not required to give a good review which many times I do not depending on the product.
