...And I LOVE my guitar, and this book. Take your full-sized guitar, change the 4th string to an octave higher, capo the fifth fret (and you now have a ukulele), find a guitar and uke with the same name, preferably look a likes, and make a mother/daughter, father/son duo of it. You will turn heads, and remember why you are playing...to share music with the world! This is a book to share music with the world with.

I love this book - I can play and sing and use the correct cords as I play. The old hymns make you feel better and the uke always makes me feel happy.

These are for a beginning-to-intermediate ukulele player and has an excellent song choice. I have a 3-octave Casio keyboard I use to play the tune before I try to play it on the ukulele. I recognized every song immediately.

Easty to ready chords for many popular hymns. I like the fact that it gives you the tab for each chord throughout the song which is very helpful for someone like me just learning to play.

Great book! Just perfect for our newly organized Uke group at the church!

Wonderful hymns and easy to follow chords for a beginner ukelele player!

These hymns are all easy to play & work for guitar as well. This volume contains a representative sampling of we'll known hymns.
