Wild Things

Synopsis

Wolf Shifter Mason McNaughton is tired of the crazy feral living in his house, endangering him, his brothers, and his sweet auntie Cora. Ferals are Shifters who've reverted to the wild stage, forgetting all about the joys of pizza and satellite TV. Not to mention, Mason is sick of waking up to the feral's rampages in the bedroom next to his. The feral has been given sanctuary, so Mason can't throw him out - the only thing to do is to find a way to cure him. The problem is, Shifter healers - elusive, Goddess-touched Shifters who have the healing gift - are few and far between. Mason volunteers to go in search of one, and is sent to a psychic in New Orleans who might have an idea of where to start looking. Mason doesn't believe in psychics, but Jasmine, the psychic in question, seems to at least put on a good show. Jasmine believes in Shifters all right, but she vowed to never have anything to do with them again. The easiest way to get rid of the growly Lupine, Mason, is to help him, but Jasmine never dreams what that help will drag her into. A short novel of the Shifters Unbound series.

Customer Reviews

Wild Things is the newest story of the Shifters Unbound series and focuses on Mason McNaughton and Jasmine Samuelson. It starts with Mason being attacked by the feral feline Aleck. Aleck is living with the wolf family because his mate is the sister of the mate of the alpha wolf Broderick. Broderick is Mason's oldest brother. Mason is severely wounded and requires the assistance of Andrea, a half lupine shifter / half Fae healer. Andrea is mate to Sean, the Guardian of Austin's Shifter Town. Andrea advises that though she is a healer, she isn't strong enough to heal the feral sickness that

afflicts Aleck. She insists that a true Shifter Healer needs to be found to heal Aleck. After a meeting with the leadership of Shifter Town, Mason is sent to New Orleans to contact Jasmine who is a true physic in an attempt to locate a Shifter Healer. Mason arrives in New Orleans at Jasmine's home to find that the house has a personality of its own to match Jasmine's and is very protective of its owner. Mason doesn't believe in physics and is doubtful that Jasmine can help in the effort to find the Healer. He may not believe in physics but he finds Jasmine's attraction difficult to resist. Whilst Mason and Jasmine are on their search Aleck attacks Aunt Cora to the point that she is in need of the Healer as well. Join the search for a Healer to cure Aleck and Auntie Cora; the dance between Mason and Jasmine, and the Healer, Zander.

Mason is sent on a mission to find a healer. If he can't, his aunt will die. He is sent to a psychic. Her name is Jasmine. Her house lets Mason in and is happy. They go to Alaska to find the healer. They find him and take him back to Austin. Need to read the story to find out what happens next. Will they get back in time to save his aunt? Will the healer go crazy after he takes care of the feral? Will he kill everyone in sight? What happens between Mason and Jasmine afterwards? Will she stay or will she leave? Great story. Can't wait to read the next one in the series.

Another awesome shifter book from Jennifer Ashley. She is definitely the top when it comes to the shifter genre, she is such a good writer that a house can become a character (Sorry you'll have to read it to get any more than that :). The book is engaging, and although the plot is pretty straight forward, she throws in elements that keep you reading, and you get to know the characters so deeply that regardless of what happens you want to follow these two all the way through. And I absolutely love that each romantic pair are different, Although the shifters themselves have characteristics that the shifters share (naturally), but Jennifer has created characters that maintain their own unique personality which they continue to maintain as they appear in other books. If the romantic scenes weren't so good, you'd forget you were reading a romance book because the action is just as good. But if your thinking about jumping into this series, definitely start from the beginning, part of what I love about this series is how everything builds, and at they very least you keep getting cameo appearance of previous couples

Sometimes I think I'd be able to keep the characters in this series straight if I read the books in order. Then I cackle maniacally and continue my mad-scientist patchwork reading of the series. Because I'm a rebel like that. (I'm not really a rebel. I just play one on TV.) (No, wait. I don't do that,

either.) So. Mason and Jasmine. He doesn't believe in psychics. She's been burned by shifters before. Plus, she lives in a sentient house. WHICH IS COOL. But only if the house doesn't eat you or anything. Anywho. The two feel the pull of attraction, but they both have their reasons for keeping their distance. Until they just throw caution to the wind and go for it. ALWAYS FUN!! like this messed up shifter world. The shifters live in a place that's both dark and hopeful and there's plenty of lovin' to go around. PLENTY of lovin'. *finger guns*-Kelly @ Reading the Paranormal

Five stars for Wild things by Jennifer Ashley
Genre: #Romance, #Paranormal, #Drama, #Suspense
Series: Shifters Unbound
Audience: Adults, NA
Review: As in all of the books shifters unbound series, this one is filled with action and Romance. In this story Wolf Shifter Mason needs the help of psychic Jasmine in finding a shifter healer. One of the shifters in his house has gone feral and attacked his sweet aunt Cora. Shifter healers move around a lot and stay by themselves so they are not easy to find. The story are full of action and heart warming scenes that takes you from Austin Texas to new New Orleans and on to Alaska. I really fell in love with the characters and got completely lost in the story. It's a well defined story that makes you want to settle in with a hot toddy, in front of a warm fire. It's hot, it's sweet and I couldn't stop turning the pages.

Mason McNaughton, was one of Broderick from the novella BAD WOLF's brother. Mason was attacked by a feral shifter, Aleck that stayed with them. He wanted the feral far away from his loved ones, but couldn't throw him out. Because he was giving sanctuary by Broderick, the Alpha of their pack. Mason set out to find a cure, to help Aleck. Which lead him on a journey to find a shifter healer. He needed help and he got from a psychic in New Orleans, a beautiful and intriguing woman by the name of Jasmine Samuelson. Jasmine Samuelson vowed never to have anything to do with shifters again in spite of her knowledge of their existence. She wanted Mason to go away and the only way, she knew it would happen faster. Is if she helped him with his quest. Though Mason didn't believe in psychics, he went along with Jasmine, as they set out on their venture. They started to realize that they'd misjudged each other. Mason and Jasmine were mates, apart they were great but together, they extraordinary. WILD THINGS is a must read, it was a delight to see everyone coming together to help, Aleck. Jennifer Ashley's SHIFTERS UNBOUND series is thrilling. You guys should have a go at it.
