My 12 year old daughter has been studying piano for the past 3 years. She completed the 5 levels of Faber's Piano Adventures in that time, and has progressed to Piano Literature Book 4 for late intermediate students. She has enjoyed the classic pieces in this book, and has not had any difficulty mastering them. I am very happy with the Faber method, and appreciate the CD, too that is included in this book. Hearing the mastered pieces played is a big help in inspiration and intoning the pieces. I highly recommend this music book.

I like the musical selection of this series. Good crisp printing and good layout so easy to turn pages by yourself.

We like this series. This book has quite a few songs I think are boring, but it's much thicker than the

others, so there are still plenty of good ones.

Great book! Many challenging songs, and it comes with a CD!
