# C.S. Lewis: The Signature Classics Audio Collection: The Problem Of Pain, The Screwtape Letters, The Great Divorce, Mere Christianity

## Synopsis

Using allegoric narrative, stinging satire, reasoned insight, and his signature wealth of compassion, C.S. Lewis wrote highly entertaining and deeply illuminating essays and books of popular theology that revealed the shared beliefs of Christianity and explored the nature of good and evil. This collection of four of his most imaginative and intelligent works displays a scintillating brilliance that remains strikingly fresh and confirms C.S. Lewis's reputation as one of the leading writers and thinkers of our or any age. Collection includes: The Problem of Pain Read by James Simmons The Screwtape Letters Read by Joss Ackland The Great Divorce Read by Robert Whitfield Mere Christianity Read by Geoffrey Howard

Average Customer Review: 4.8 out of 5 stars [See all reviews](#) (71 customer reviews)

Best Sellers Rank: #177,279 in Books (See Top 100 in Books) #5 in [Books > Books on CD > Authors, A-Z > \( L \) > Lewis, C.S.](#) #109 in [Books > Books on CD > Religion & Spirituality > Christianity](#) #138 in [Books > Literature & Fiction > British & Irish > Literature](#)

## Customer Reviews

I like to read, but I found this audio collection to be outstanding. I felt I got more out of his books listening to them, then actually reading them. He is very deep and concentrated in his thoughts and ideas, and it helped me immensely in my understanding and appreciation for who CS Lewis is and how he write. I am a seminary student, and consider CS Lewis to be a modern day Apostle Paul. If you find reading CS Lewis difficult, I suggest you try the audio books, there is something about having someone read to you, and being able to comprehend it better. Thanks for providing this series!

Some readers obviously don't understand the material. Others deliver it well enough, but don't sound authentic. Not this time. If I didn't know better, I would say C.S. Lewis himself was reading

this book. It has been a pure delight to revisit these classics in audio form. I strongly recommend it.

Of course Lewis' books are great (we all know that) but the narrators in this package of books are spectacular. The narrator for The Screwtape Letters is uncanny (and eerie) in his reading. The narrators truly make this a first class product. I highly recommend!

The reading of each book was complete and well done. I had started 2 of these as books, "Mere Christianity" and "The Great Divorce", but I never seemed to find time to read them. I can listen to the CDs working around the house or in the car. "The Screwtape Letters" were great. A real reminder how clever satan is at making you think that the issue is solely yourself or others. He is called the deceiver for a very good reason. "Mere Christianity" is a very thoughtful book and one worth discussing with others (Book Club, Book study etc.) "The Great Divorce" has nothing to do with marriage, but our divorce from God and how he wants the best for us and we settle for so much less. After listening to this book you will make decisions differently. "The Problem with Pain" is intense. C.S. Lewis is indeed a critical thinker. Pain is the result of the fall from grace and about how grace restores you (much different from curing you). Each time you listen to one of these CDs you will learn more about yourself, God and your relationship with Him. If you are not certain of who God is and if satan is real these CDs will be very helpful.

I'm not a major intellectual, but I did manage to complete a four year degree... Maybe if I were more astute I wouldn't have a problem with the use of old English (if that's what you call it) & the thick English accent of the reader... I'm just finding almost every story hard to follow and I haven't had a problem with other audio books. It's just a bit over the average Joe or Mary's head... I'm going to try listening at home so I can really concentrate... I just can't drive and take it in as I can most audio books... So perhaps I'm just not that bright... I don't know... But for what it's worth, that's my review!

There are few books that make you stop and take an accounting of who you are, what you're about and how you fit into time and the universe more than Mere Christianity. While it was originally a radio series (BBC) broadcast during WWII, it's approach is as applicable now as it was then or at any point in time. If you have any doubts, concerns or interests regarding the existence of God and/or how we relate to Him; if you're searching for Truth (with a capital "T") you will find some of your answers here. The approach is non-denominational and non-doctrinal. CS Lewis speaks of basic easy to grasp universal concepts rather than lofty dogma. Mere Christianity is and has been a

modern classic that can be read and re-read with passion not only for they who search but also for they who have found answers to basic questions we all pose while here on earth

As are the other works. We listened to this on a cross-country road trip. Very intense, but extremely enjoyable. The works sparked a lot of conversation between my wife and I, both of whom are not practicing religious people.

this is a collection of 4 books by CS lewis. So far, I've listened to the Great Divorce, which is a fictional story of one man's travel from hell to heaven. It is beautifully narrated by a very talented gentleman who captures multiple characters almost effortlessly. I have not yet listened to the others, but I'm working through them gradually. They are wonderful.
